

Louisiana AGC's Supervisory Training Program

UNIT 5: Planning and Scheduling

Supervisory skill—or the lack of it—directly affects every company's bottom line. Each day decisions made by every foreman and superintendent are crucial to the success or failure of every construction project. You make your money in the field. Or you lose it.

The Supervisory Training Program (STP) developed by AGC, is designed specifically to meet the needs of the construction industry. Developed, updated, and field-tested by and for contractors, the Program consists of 12 courses that focus on the knowledge and skills that every supervisor must have to be an effective manager of people, time, equipment and materials.

UNIT 5: Planning and Scheduling

This course includes the following sessions:

- | | |
|---|---|
| Intro to Planning and Scheduling | Using the Schedule on the Jobsite |
| Preparing the Project Plan | Updating the Construction Schedule |
| Communicating the Plan | The Schedule as Documentation |
| The Critical Path | Using Planning and Scheduling |
| Computer Scheduling I and II | |
